

## Privacy Filters

V7 Privacy Filters are excellent for open, high-traffic environments or wherever on-screen data needs to be kept private. Screen data is visible only to persons directly in front of the monitor without blurring or distortion. The filter darkens on-screen information when viewed from the side. The high-gloss finish sharpens contrast and helps to protect fragile LCD screens from scratches and damage. V7 Privacy Filters are easy to attach and remove, and can be left in place even when your notebook computer is closed. Sizes are available to fit most laptop computers and desktop displays.

 SEVEN

# Features

- 2 way- Blocks the view from side angles
- Reversible – Matte or Glossy – for highest color clarity use glossy side to reduce glare and lessen eye strain view through matte side
- Filter darkens on-screen information when viewed from side

Monitors

Laptops

Macbooks

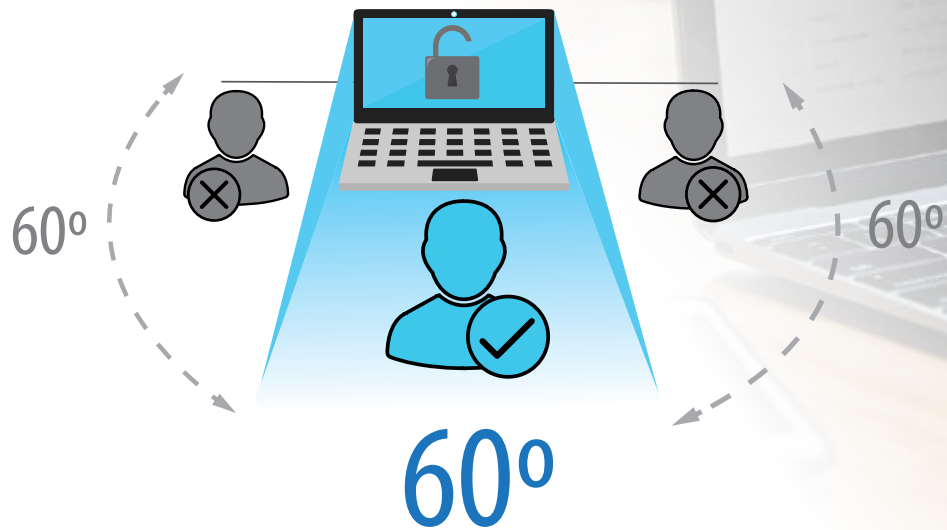

- Compatible with 2 Macbook Models

Touch Screens

- Receptive to constant touch
- Touchscreen- 3 models
- Effortlessly allows glide across screen

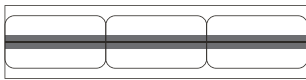

# Privacy + Security

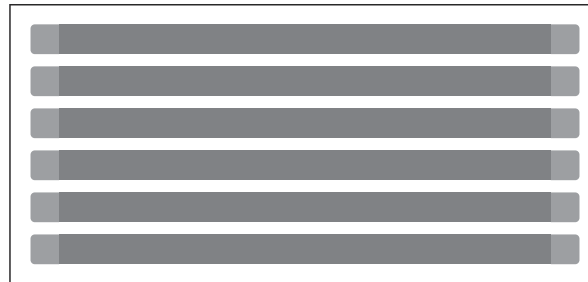

# Attachment Methods

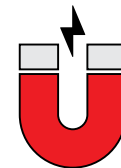

Tabs

Strips

Magnets  
\*MacBook only

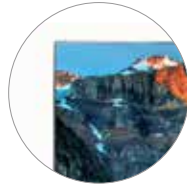

# Which Filter is Right for Your Device?

## 1 Determine Your Screen Type

### Raised Bezel

Screen with a raised frame

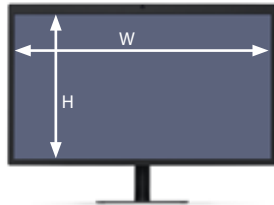

### Flat Front Glass Screen

Edge to edge glass - no frame

## 2 Measure Your Screen

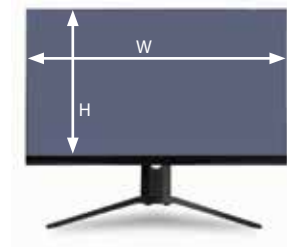

### Raised Bezel

Measure the height (h) and width (w) of the screen's viewable area within the bezel

### Flat Front Glass Screen

Measure the height (h) and width (w) of the entire glass display

## 3 Tips to Find Your Filter

### Buy Smaller

If you don't see a product that matches perfectly. Select one that is smaller, yet closest to your measurements

### Monitors

Select one that is larger, yet closest to your measurements

### Apple Devices

Select a custom-fit product that matches your Apple Model, size, and display type.
